DETAILED ACTION

Applicant's arguments filed on April 19, 2004 have been fully considered but they are not persuasive.

Claim Rejections - 35 USC § 102

Claims 7, 8 and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by either of Batten et al., Curtis or Green. Each of these references discloses a reversible drive power source having first and second over-running clutch assemblies, which assemblies are connected to respective loads (subsystems). Applicant argues that none of the cited references teach or suggest an hydraulic pump, an air compressor, or an air cycle machine. Reciting that a subsystem includes an hydraulic pump, for example, merely sets forth the intended use of the device. Each of the positive displacement device 9 of Green, the positive displacement device 97 of Curtis, or the positive displacement device 21 of Batten et al. is inherently capable of functioning as an hydraulic pump, an air compressor, or an air cycle machine. These references clearly disclose all claimed structural limitations.

Allowable Subject Matter

Claims 2, 4, 6, 10 to 12, 22 to 29 and 35 are allowed.

Information Disclosure Statement

The information disclosure statement filed on October 14, 2003 fails to comply with 37 CFR 1.97(c) because it lacks a statement as specified in 37 CFR 1.97(e) and because it lacks the

fee set forth in 37 CFR 1.17(p). It has been placed in the application file, but the information referred to therein has not been considered.

Drawings

The drawings received on November 17, 2003 are acceptable with regard to content but not with regard to form because the lines and numerals are poorly drawn and irregular. New corrected drawings are required in this application. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
